EXPERIENCE

Oxeph Communications | Telesales Executive

Islamabad, Pakistan | August 2020 - January 2021

Telesales Executive at Oxeph Communications a UK based organization, specializing in providing exceptional customer service and promoting RTA services. Successfully handled customer inquiries, resolved issues, and provided detailed information about RTA offerings. Demonstrated proficiency in building relationships and driving sales through effective communication and product knowledge. Proven track record of meeting sales targets and ensuring customer satisfaction in the RTA services industry.

BitCoderLab | Frontend Developer

Peshawar, Pakistan | March 2023 - Present

Bit Coder Lab is a trailblazing service provider in the digital domain, committed to driving innovation and facilitating digital transformation for businesses across diverse industries. With a comprehensive suite of services and a dedicated team of experts, we empower organizations to thrive in the rapidly evolving digital landscape.

The nexus | Full-Stack Web Developer

Peshawar, Pakistan | June 2023 - Present

As a Full-Stack Developer at Nexus Hotel Apartments, Peshawar, I spearheaded the development and maintenance of the web application, ensuring alignment with evolving requirements and industry standards. Collaborating closely with stakeholders, I implemented essential features and optimized performance to enhance user experience. Proactively identifying areas for improvement, I proposed innovative solutions in a dynamic team environment, achieving project goals efficiently.

SKILLS

Programming Languages: Javascript, C++, Python

Libraries/Frameworks: HTML, CSS, Reactjs, Nextjs, React Native, Nodejs, Expressjs, Mongoose

Tools / Platforms: Marterial UI, Chakra UI, AntDesign, Axios, Formik, Yup, Framer Motion, Styled Components, Firebase, AOS, EmailJS, Lottie-React, scss, Github, Git, Bootstrap, NextAuth, Nodemailer, Docker, Containers, AWS, React-Spring, React-Parallax

PROJECTS / OPEN-SOURCE

The nexus Hotel Apartments | [Link](#) *React, Node, Express, mongoose, mongoDB, firebase, nodemailer, twilio, chatbot, Google Maps*

The Nexus Hotel Apartments, located in Peshawar, offers a range of services including accommodation, workspace facilities, meeting rooms, and meals.

Impact Match | [Link](#)

React, Styled Components, Socket.io, scss

As a collaborative member of the front-end team at Impact Match, I contributed to the development of a matchmaking marketplace designed to connect foundations and nonprofits. Leveraging my expertise, I actively participated in crafting intuitive user interfaces and ensuring seamless navigation for both foundations and nonprofits utilizing the platform. Through effective teamwork and dedication, we enhanced the user experience, facilitating meaningful connections between organizations and empowering them to make impactful collaborations.

Property Port | [Link](#)

React, Node, Express, Mongoose, Mongodb

During my tenure as a full-stack developer, I contributed to the development of a platform spearheaded by a consortium of real estate agents. This platform aimed to provide comprehensive information and services pertaining to the various societies established across Pakistan. While still under development, my role encompassed designing and implementing both the front-end and back-end components of the platform. My efforts were instrumental in laying the groundwork for a robust and user-friendly interface that would ultimately serve as a valuable resource for individuals seeking information on Pakistani societies and related services.

CarMed Vehicle Services | [Link](#) *Next, Prisma, Mongoose, MongoDB, Firebase, Google Maps(React), Formik, Yup*

As a front-end developer at CarMed Vehicle Services, I played a pivotal role in enhancing the platform's functionality. I contributed to creating a seamless interface that facilitated connections between car owners and mechanics. This platform empowered car owners to easily locate reputable mechanics based on ratings and reviews from previous clients, wherever a mechanic was registered. My efforts significantly improved the user experience and streamlined the process of finding reliable automotive services.
